

Quality Policy

Polykemi Group manufacture and marketing different types of sustainable customer designed plastic material and our vision is to be seen as a "World Class" of our customers to the companies.

All employees shall contribute to this by setting the customer in focus, by involvement, participation and high level of service. This is a personal responsibility and a way of thinking based on Polykemi Group's corporate culture and values.

To achieve "World class", we shall be working with:

- Clear objectives for what the companies / businesses shall perform.
- High competence, responsible and involvement employees in groups / teams that working with continuous improvements.
- A quality management system based on experience in assuring the quality of both our manufacturing processes as our products.
- Our daily work shall be characterized by the will to constantly develop and meet our customers' demands and expectations.
